Experience

Chargoon   **2021-06-01 - 2023-09-01**
Front-end developer

- **Collaborate** with cross-functional teams to design, develop, and maintain responsive web applications using React JS.

- Participated in the **agile development process**, including sprint planning, daily standups, and retrospectives.

- Boosted team **productivity** by achieving a **20% increase** in completed story points.

- Conducted **code reviews**, identified issues, and provided constructive **feedback** to ensure code quality and consistency.

- **Reduced reported bugs** by 15%, ensuring higher software quality and smoother user experiences.

- Integrated **RESTful API**s to fetch and display data, ensuring seamless communication between the front-end and back-end systems.

- Implement efficient **state management** solutions, using Redux and Context API, to manage application data and improve performance.

- Stayed up-to-date with industry trends and best practices, continuously **improving skills and knowledge.**

Education

Mapsa   **2020-11-01 - 2021-04-01**
Bootcamp   Front-end development

- **Learned** from and **collaborated** with experienced React developers to gain hands-on experience in building and maintaining web applications.

- **Mastered modern JavaScript** (ES6+) by applying advanced language features, such as arrow functions, destructuring, and async/await, in coding exercises and projects.

- Developed strong **debugging skills**, quickly identifying and resolving issues in React applications.

- Assisted in the **development of React components** and user interfaces.

- Worked on tasks related to **state management, UI/UX design,** and **front-end development**.

- Gained valuable insights into React **best practices** and **development methodologies**.
